

Engineering Products and Services

Industrial Farming and Processing

- Informative courses, education environment (heads, hands and machines)
- Seed evaluation and seeding technology
- Practice and machining of harvesting, combine harvester, retting, storing
- Practice and machining of hemp straw processing to raw materials, semi products various fibres, shives
- Starting / building up the various industries in an industrial cluster where the industries are connected in order to tell the marketing story together
- Leverage of joint forces thanks to parallel build ups and permanent knowledge exchange between active partners and corporations in Switzerland, East Germany, Austria, Italy, Croatia, Serbia, Ukraine, Dubai, Qatar, Brasilia, Chile, ...
- Involvement with traditional industries e.g. Rieter Winterthur Weaving Competences which help to adopt their solutions to process the new materials in order to achieve established quality standards with semi products and consumer products
- Prepared access to poly-technical, agricultural, humanistic universities and institutes in material research & development
- Potentially involved with selected, appropriate foundations i.e. Ellen McArthur, Ernst Göhner foundation (EGS), MAVA foundation in order to drive the move towards renewable resources and circular and solidary economy as an alliance on supporting platforms

Circular and Solidary Economy as a stimulating, fruitful combination

- Sociocratic knowledge and experienced-innovation gathering in growing circles and clusters
- Start and support of operations in hubs for community empowerment and resilience
- Detection, involvement and reactivation of lost industrial competences and resources in the new contemporary context after a shift in paradimes
- Address and involve the further economic, social, cultural and ecological environment and spheres

Actual Offerings and Prices

Processing Technology

- Contract for engineering, construction, hand over to operations EUR 90'000/site
- Design and supply of the key unit from Switzerland EUR 50'000
- Service agreement to ensure continuous operations EUR 10'000 p.a. + expenses

Also see www.glaernischtextil.ch/engineering

Circular and Solidary Economy Practice

- Teaching, consulting, coaching, empowering on site
- Supporting and leveraging institutional and public relations
- Leverage the various stories and support the creation of growing momentum with an impact on regional and global markets, customer and institutional behaviour

EUR 6'000 per week + expenses
