## **Financial Scheme**

Dear Sir, dear Madam

We intend that we all can perform in an active, creative and fruitful way. This also means some way of free working within limits. Therefore we propagate a payment scheme similar to the prepaid mobile phone: one pays once in advance and is then free to use the services as one likes.

Our services and contributions as well as their prices are listed in the paper attached. Based on that we propose and offer the following prepaid model:

Buy shares of the Glaernisch Textile Cooperative for CHF or EUR 100'000 and consume for that amount the products and services listed. Enjoy these advantages coming with it:

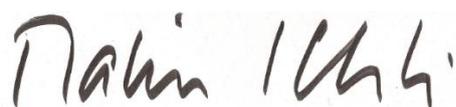

- You may use our products and services as you like – we provide our best and keep an eye on the balance.
- You co-own the Glaernisch Textile Cooperative and contribute that the cooperative as a source and mother is fine and can develop the increasing new business well on a global basis.
- You are free to renew the shares after you have used their value for products and services and to stay with the Glaernisch Textile Cooperative or you mind and concentrate on your own local business which will have had a good start after the use of products and services for that amount.

We will be grateful and proud to accept your order for 200 shares at CHF/EUR 500 each at a total amount of CHF/EUR 100'000. By doing so, you allow us to start immediately and to go the shared way full of synergies and powerful development on both sides.

Thank you for your kind attention and your evaluation of this offer.

Kind regards

The Glaernisch Textil Cooperative

Martin Kloeti  
President, CEO
